FOREWORD

This annual list represents all state and local documents received at the Montana State Library since December 31, 1973.

Last year the Montana State Library acquired the Montana Department of Highways library collection. This collection, which reflects a wide variety of publications on highways and transportation for Montana, other states and the provinces of Canada, has enlarged the state documents collection.

The Documents Distribution Center is operated by the Montana State Library. Its primary function is to supply copies of Montana state publications to designated depository libraries in and out of state. To aid the depository libraries, a shipping list is sent each week. State Documents in the Montana State Library as of December 31, 1974, supersedes shipment lists 117-168.

The listing is divided into three parts: Part A, Montana publications; Part B, Documents from other states and Montana municipal and regional governmental agencies, local Federal Agency publications, and miscellaneous publications arranged alphabetically by author; and the INDEX, which is cumulative.

Special thanks to Sue Barney, library assistant, and to Mary Lanthorn for their work in typing the list and to Mary Pat Coolidge and Jo Ann Fallang for their assistance in proofreading.
